**YES. Briefly explain:**

The provisions outlined in paragraph 10, Article 10 of its Corporate Bylaws, and Chapter VII: Control, Section 1 External Control, paragraph 1.10: Special Audits requested by Shareholders, of Ecopetrol S.A.'s Corporate Governance Code establish the requirements to be met by shareholders and investors requesting Special Audits. Requests to perform Special Audits must be submitted in writing to the Shareholder and Investor Relations Office, noting the reasons for performing a Special Audit, the events and transactions to be audited, and their duration. The Shareholder and Investor Relations Office must process these requests quickly and efficiently, enabling the auditor's activities to coordinate with the company's departments, which must cooperate to guarantee the viability of implementing the audit.

The results of the Special Audit shall be reported first to the President of Ecopetrol, who will have thirty (30) business days to decide on the matter. These results and the President's decision will be reported to the Board of Directors and the other control and oversight bodies. In the event of potential legal infringements, the results shall be transferred to the competent authorities.

Special Audits are recognized as a Shareholders' right, and it is a procedure described in detail in Article 10 of the Corporate Bylaws, paragraph 10. This procedure clearly indicates the requirements for requesting the audit, who may request these, and how they must be addressed and carried out, the requirements thereof, the matters it can cover, and the qualities of the person that will be hired to carry out said audit, among other matter, which includes the practice of having a precise written procedure.

Additionally, regarding who assumes the costs of the Special Audit, the Corporate Governance Code indicates in Chapter VII: Control, Section 1: External Control, paragraph 1.10 that Special Audits may be requested by a plural number of shareholders representing at least five percent (5 %) of the subscribed shares of Ecopetrol, under their own expense and responsibility, provided that said audits do not hinder the day-to-day operations of the Company.

During 2024, no changes were made to the conditions for requesting a Special Audit.

**YES. Briefly explain:**

Per Article 48 of the Corporate Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024), both the members of the Board of Directors and the employees of the Company have a duty of confidentiality; thus, they cannot reveal the operations, plans, or initiatives of the Company to third parties, nor communicate any technical procedure or the results of exploration or location of assets, or similar information and, Ecopetrol's activities in general, unless there is an instruction or order from a competent government authority. The use of privileged information for trading shares is prohibited, and the Company's Directors and workers must abide by the laws and internal regulations that regulate the matter.

In furtherance of such duty and statutory prohibition, in the Information and Obligations Declaration Form for Members of the Board of Directors of Ecopetrol S.A., the Directors declare that as members of the Board of Directors, they undertake to comply with the obligations and responsibilities inherent to their position and, especially to not to negotiate, directly or indirectly through an intermediary, shares of Ecopetrol S.A. from knowledge obtained from the presentation of a takeover bid or other relevant operations, such as mergers or spin-offs.

In addition to the above and in compliance with the Federal Laws of the United States, given the status of Ecopetrol as issuer of American Depositary Receipts (ADRs) in that country, a measure was implemented in the Company whereby one month before the publication of results, all officials and administrators with access to privileged information about the Company, must refrain from carrying out transactions with Ecopetrol shares during that month and up to 24 hours after the quarterly results report is published.

During 2024, no takeover bid was presented. In March 2024, the new Directors signed the Information and Obligations Declaration Form for Members of the Board of Directors of Ecopetrol S.A., ensuring the commitment of the entire collegiate body thereto, and a month before all financial statement disclosures, the employees with access to insider information were informed that they would not be able to trade their shares until one day after publication.

#### YES. Briefly explain:

Ecopetrol's Corporate Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024) expressly establish that the duties specified in Recommendation 8.1 of the Code of Best Corporate Practices are the responsibility of the General Shareholders' Meeting.

The Corporate Bylaws establish that the fees of the members of the Board of Directors will be set by the General Shareholders' Meeting, and they will be paid for attending the meetings of the Board of Directors and the Committees. Said fees will be fixed by taking into account the nature of the Company, the responsibility of the position, and the market guidelines (paragraph 3 of Article 20 of the Corporate Bylaws). It is important to specify that Senior Management does not receive a variable remuneration component linked to the share value; rather, it is associated with the long-term business results (3 years).

The Corporate Bylaws establish that the Board of Directors will be comprised of nine (9) principal members without alternates, who will be elected by the General Shareholders' Meeting by the electoral quotient system for institutional periods of four (4) years and may be reelected more than once for equal periods without exceeding three (3) periods in total. Elected persons may not be replaced in partial elections without proceeding to a new election under the electoral quotient system unless the vacancies are unanimously filled. Appointment as a member of the Board of Directors may be made in a personal capacity. In every case, in the fulfillment of their duties, the Board of Directors member, regardless of the origin of their candidacy, must address their fiduciary duties as a corporate administrator. (Article 20 of the Corporate Bylaws). For the configuration of the Board of Directors, the Internal Regulations of the Board of Directors will also be taken into account, as well as the Internal Relation of the Corporate Governance and Sustainability Committee, the Succession Policy for Members of the Board of Directors, the Board of Directors Experience and Competencies Matrix, and the Diversity and Inclusion Policy for the Board of Directors and the Boards of the Ecopetrol Group.

Likewise, The Corporate Bylaws establish that the Nation undertakes, in accordance with its shareholding, that the divestment of assets whose value is equal to or greater than 15% of the market capitalization of Ecopetrol S.A. will be discussed and resolved within the General Shareholders' meeting, and the Nation may only vote favorably if the vote of the minority shareholders is equal to or greater than 2% of the subscribed shares of shareholders other than the Nation (Paragraph Article 15). The Corporate Bylaws establish that it is the duty of the Meeting to approve business

reorganization processes, such as mergers, spin-offs, transformations or acquisitions (Article 15, section o). These duties correspond exclusively to the Shareholders' Meeting and, due to their specific nature, cannot be delegated to other corporate bodies.

In 2024, paragraph r) or Article 15 and numeral 7 of Article 23 of the Corporate Bylaws were amended, whereby it is not a duty of the Board of Directors to submit a Succession Policy of the Board of Directors for approval by the General Shareholders' Meeting.

**10.6. In the case of Bylaws amendments, each Article or group of Articles** that are substantially independent **is voted on separately.** Regardless, an Article is voted on separately if any shareholder or group of shareholders representing at least five percent (5%) of the share capital requests during the Meeting, a right that is previously disclosed to shareholders.

**10.6 Implemented measure**YES ☒NO ☐N/A ☐**YES. Briefly explain:**

Article 3 of the Internal Regulations of the General Shareholders' Meeting establishes that, in the case of amendments to the Corporate Bylaws, an Article will be voted on separately if any shareholder or group of shareholders representing at least five percent (5%) of the paid-in capital, requests it during the Meeting.

It is important to note that this Recommendation will be implemented as long as the amendments to the Corporate Bylaws are submitted for consideration at the meetings of the General Shareholders' Meeting and any shareholder or group of shareholders representing at least five percent (5%) of the share capital request a separate vote on the Articles; in the latest amendment carried out and approved by the General Shareholders' Meeting of March 30, 2022, this event did not occur.

In 2024, the possible event included in the recommendation did not occur, although the Corporate Bylaws were amended, as no shareholder or group of shareholders representing at least 5% of the paid-in capital requested a separate vote for each article.

**16.2. The Company has a procedure**, expressed through the Remuneration, Appointments, and Culture Committee or another that fulfills its duties, which allows the Board of Directors, through its own dynamics and the conclusions reached by the annual assessments, to achieve the objectives indicated in Recommendation 16.2.

**16.2 Implemented measure**YES ☒NO ☐N/A ☐**YES. Briefly explain:**

The Internal Regulations of the Board of Directors are published on the Company's website, [www.ecopetrol.com.co](http://www.ecopetrol.com.co), and specify their objective to establish the basic rules for its organization and operation and determine the principles for the actions and rules of conduct of its members. Article 4, Chapter 2, subchapter 1, "Composition, Election, Term and Resignations" specifies that the General Secretary, assisted by other areas, carries out the assessment and due diligence of the candidates' resumes, including matters such as academic background, accrediting academic titles, experience and positions held; another Board of Director positions the candidate belongs to at the time of their candidacy; compliance with general and technical requirements; background check including disciplinary, fiscal, criminal, judicial and professional records; an examination to verify if they appear in any restrictive lists; verify their quality of independence of those candidates seeking an appointment as such; and their availability of time to guarantee they have the time at their disposal to fulfill their duties fully.

The work carried out by the General Secretary and other company areas supporting the process serves as input for the Board of Directors through the Corporate Governance and Sustainability Committee in order to not only verify the quality of independence of those candidates seeking an appointment as such, but also to review the resumes of the recommended candidates in order to verify that they have knowledge and experience in the activities of Ecopetrol's corporate purpose, and/or have knowledge and experience in the industrial, and/or commercial, financial, risk, securities, administrative, legal or related sciences field, have a good reputation and are recognized for their professional suitability and integrity.

Additionally, the Succession Policy for Board Members establishes that in the re-election processes for Board members, the outcome of the evaluation of the activities of the Board of Directors and the continuity of the requirements to act as a director will be considered.

In 2024, this measure was implemented for the election of the members of the Board of Directors that took place at the General Shareholders' Meeting on March 22, 2024; in this regard, the General Secretary, with the aid of other areas, evaluated the resumes of the candidates, taking into account different aspects, such as accredited experience, degrees obtained, positions held, other Boards of Directors, general and technical requirements, verification of background in disciplinary, fiscal, criminal, criminal and professional matters, review of background in restrictive lists, compliance with independence requirements for candidates who applied as such, among others.

The results of this exercise served as input for the Board of Directors through its Corporate Governance and Sustainability Committee in its meeting on March 11, 2024, which will accept the quality of independence of those candidates seeking an appointment and assess the resumes of the recommended candidates. According to the information provided by the candidates, all of them have the necessary time to perform their duties, which was also analyzed in light of their participation in other companies.

The Corporate Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024), published on the Company's website, [www.ecopetrol.com.co](http://www.ecopetrol.com.co), establish in Article 21 that the members of the Board of Directors will be committed to carrying out the Company's corporate vision and they must, at minimum, meet the following requirements: (i) have an academic background and experience regarding the activities of the Company's corporate purpose and/or have knowledge and experience in the business and/or commercial, financial, business risks, securities, legal or related sciences field; (ii) have over 15 years of professional experience; (iii) have a good reputation and be recognized for their professional suitability and integrity; and (iv) not belong simultaneously to more than five (5) boards of directors of public limited companies, including that of Ecopetrol. Additionally, the makeup of the Board of Directors considers criteria of gender, diversity, and inclusion. At least 30% of the members of the Board of Directors must be women.

The Internal Regulations of the Board of Directors published on the website specify their objective to establish the basic rules for its organization and operation, as well as determining the principles for the actions and rules of conduct of its members Article 4 of Chapter 2, subchapter 1, "Composition, Election, Term and Resignations", specifies that the General Secretary, assisted by other areas, carries out the assessment and due diligence of the candidates' resumes, including matters such as academic background; accrediting academic titles, experience and positions held; other Board of Director positions the candidate belongs to at the time of his/her candidacy; compliance with general and technical requirements; background check including disciplinary, fiscal, criminal, judicial and professional records; examination to verify if they appear in any restrictive lists; verify their quality of independence of those candidates seeking an appointment as such; and their availability of time to guarantee they have the time at their disposal to fully fulfil their duties.

The Board of Directors approved the Competencies and Skills Matrix that all members of the Board of Directors of Ecopetrol S.A., a dynamic tool that addresses the needs of the business in order to contribute towards the fulfillment of the established strategy, seeking to highlight the competencies that are required for this body and to complement other stipulations required by The Corporate Bylaws and the law in this matter. Said Matrix can be found published on the Company's website at the following link:

Additionally, the Internal Regulations of the General Shareholders' Meeting stipulate that the Company will publish on the website the profiles of each of the members of the Board of Directors nominated by the shareholders, together with their acceptance letter.

Likewise, the Succession Policy of the Board of Directors provides that the candidates' resumes will be published on Ecopetrol's website.

In 2024, this measure was implemented for the appointment of new Board Members, which took place at the General Shareholders' Meeting on March 22.

**The Company** considers that the sole evaluation of the resumes by the shareholders is insufficient to determine the suitability of the candidates, and therefore, it **has an internal procedure to evaluate the conflicts of interest and legal disqualifications and the candidate's suitability to meet the needs of the Board of Directors**, through the assessment of a set of criteria that must be met in their functional and personal resumes, and by verifying compliance with certain objective requirements to become a Board of Directors member, as well as any additional requirements for an Independent Member.

**16.4 Implemented measure**YES ☒NO ☐N/A ☐**YES. Briefly explain:**

The Internal Regulations of the Board of Directors, published on the Company's website, [www.ecopetrol.com.co](http://www.ecopetrol.com.co), states that the General Secretary, aided by other areas, carries out the due diligence or assessment of the candidates' resumes, and these selfsame candidates for Board of Directors membership are responsible for the veracity, integrity, and accuracy of the information contained in their respective resumes. The assessment covers the following characteristics:

- Qualified experience
- Academic degrees obtained
- Positions held
- Boards of Directors to which they belong as of their candidacy date
- Compliance with general and technical requirements
- Background checks, including disciplinary, fiscal, criminal, judicial, and professional records
- Background check regarding presence on restricted lists
- Compliance with independence requirements should be applicable to candidates running as independent members
- Their time availability, in order to ensure they have the time at their disposal to fully fulfill their duties. Availability includes at least the time required for the review and study of the support documents of the respective Board and Committee sessions, as well as the review and observations regarding the minutes.
- The vetting process for the candidates for the Board of Directors includes verifying they have no conflicts of interest and disqualification pursuant to the law.

The work carried out by the General Secretary and other company areas supporting the process serves as input for the Board of Directors through the Corporate Governance and Sustainability Committee in order to not only verify the quality of independence of those candidates seeking an appointment as such, but also to review the resumes of the recommended candidates in order to verify that they have knowledge and experience in the activities of Ecopetrol's corporate purpose, and/or have knowledge and experience in the industrial, and/or commercial, financial, risk, securities, administrative, legal or related sciences field, have a good reputation and are recognized for their professional suitability and integrity.

Additionally, the Regulations of the Corporate Governance and Sustainability Committee include the duty of verifying the quality of independence of those candidates seeking an appointment as such and to assess the resumes of the candidates to the Board of Directors of Ecopetrol in order to verify they agree with the profile defined by the Company.

In 2024, this measure was implemented to appoint new Board Members, which took place at the General Shareholders' Meeting on March 22.

**16.5.** In addition to the independence requirements provided for in Law 964 of 2005, **the Company has voluntarily adopted a more rigorous definition of independence** than that established in the aforementioned law. This definition has been adopted as a frame of reference through the Regulations of the Board of Directors and includes, among other requirements to be assessed, any relationships or associations of any nature of the candidate for Independent Member with controlling or significant shareholders and their Related Parties, domestic and foreign, and requires a double declaration of independence: (i) of the candidate before the Company, its shareholders and members of Senior Management, executed through their acceptance letter; and, (ii) to the Board of Directors, regarding the candidate's independence.

**16.5 Implemented measure**YES ☐NO ☒N/A ☐**NO. Explain:**

No, a more rigorous definition has not been established in the internal regulations. However, in addition to the independence requirements set forth in the second paragraph of Article 44 of Law 964 of 2005, Ecopetrol has voluntarily adopted a mechanism to ensure a double declaration of independence: (i) of the candidate before the Company, its shareholders and Senior Management, through their acceptance letter, and in the questionnaire for the appointments and/or election of members of the Board of Directors required by the Pension Fund Administrators - AFP's for its Spanish acronym (minority shareholders with the largest shareholding in Ecopetrol S.A.); and (ii) to the Board of Directors, through the signing of the commitment to maintain their Independent status during the period for which they were elected.

In addition to the aforementioned independence criteria for issuers in Colombia, Ecopetrol S.A. complies with the New York Stock Exchange standards.

The aforementioned requirements and criteria implemented by Ecopetrol are included in the Corporate Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024) published on the website [www.ecopetrol.com.co](http://www.ecopetrol.com.co).

In 2024, these mechanisms were implemented for the election of the Board Members that took place in the General Shareholders' Meeting of March 22, 2024; in this regard, the General Secretary, with the aid of other areas, assessed the candidates' resumes, taking into account different aspects, including, among others, verifying compliance with the independence requirements for the candidates that were nominated as such.

Additionally, the candidates nominated as independent members accredited the double declaration of independence through the letter of acceptance and the questionnaire for the nomination and/or election of members of the Board of Directors required by the Pension Fund Administrators - AFPs (minority shareholders with major shareholding in Ecopetrol S.A.), as well as signing the commitment to maintain their independent status during the period for which they were elected.

##### **YES. Briefly explain:**

It is important to specify that there are no executive members on the Board of Directors. Ever since Ecopetrol became a mixed economy Company with the Nation as majority shareholder and individuals as minority shareholders, the Board of Directors has been comprised of a majority of Independent Members. This measure has been in place since March 27, 2008, the date on which the first General Shareholders' Meeting took place.

This corporate governance practice was formalized in The Corporate Bylaws amendment approved by the General Shareholders' Meeting of March 26, 2015. Said measure is currently dictated by paragraph 1, Article 20 of the Corporate Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024), which established that the majority of the members of the Board of Directors must be independent.

In 2024, most members of the Board of Directors were independent members.

**YES. Briefly explain:**

The fifth paragraph of Article 20 of the Corporate Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024) establishes that the appointment of the Secretary of the Board of Directors is delimited in the Internal Regulations of said governing body, published on the Company's website, [www.ecopetrol.com.co](http://www.ecopetrol.com.co).

Moreover, Article 13 of the Internal Regulations of the Board of Directors establishes that the Secretary's appointment and removal is the Board's duty at the behest of the President of Ecopetrol S.A.

The rules provided in measure 18.3 for the appointment of the Secretary of the Board of Directors are as follows:

i. When acting exclusively as Secretary of the Board of Directors, the appointment and removal thereof correspond to the Board of Directors, subject to a prior report from the Appointments and Remuneration Committee, if applicable.

In accordance with Article 22 of the Corporate Bylaws and Article 13 of the Internal Regulations of the Board of Directors, the General Secretary of Ecopetrol shall act as Secretary of the Board of Directors. In the meeting where the General Secretary is absent, the attendees may appoint among its members the person who will assume the duties of the Secretary for said meeting. Consequently, (i) this Recommendation is not applicable to Ecopetrol given that the Secretary of the Board of Directors does not act exclusively as such, as the job description of the General Secretary includes additional duties within the Company for whoever holds this position.

ii. When the position of Secretary of the Board of Directors coincides with other executive positions within the Company, independence from the President of the Company is safeguarded so that the appointment and removal correspond to the Board of Directors at the behest of the President of the Company, with a prior report from the Appointments and Remuneration Committee, if there is one.

Per Article 22 of the Corporate Bylaws and Article 13 of the Internal Regulations of the Board of Directors, the General Secretary of Ecopetrol or whoever acts in his stead shall act as Secretary of the Board of Directors, the appointment and removal thereof correspond to the Board of Directors, subject to a prior report from the Appointments and Remuneration Committee, if applicable.

In addition, numeral 15 of Article 23 of the Company's bylaws establishes that the appointment and removal of management and trust employees who head the first-level departments of Ecopetrol (those who report directly to the President of Ecopetrol) correspond to the Board of Directors.

iii. The possibility of serving or not serving on the Board of Directors.

Given that Article 44 of Law 964 of 2005 provides that the Boards of Directors of securities issuers must be comprised of at least 25% of Independent members and that one of the criteria for independence is not to be an employee or officer of the issuer, Ecopetrol has no statutory provision to the contrary. Therefore, as long as this percentage of independence is met, the Secretary of the Board would be allowed to be a member of this corporate body. However, Ecopetrol follows good governance

practices and complies with measure 17.2. of the Country Code, seeking to exceed the minimum independence required by law. Therefore, the Board of Directors does not include any executive members within its structure.

In 2024, the rules applicable to Ecopetrol were considered for appointing the new General Secretary, who, as already explained, also performs the role of Secretary of the Board.

In 2024, no changes were made to the Internal Regulations of the Board of Directors.

**18.17 Implemented measure**YES ☒NO ☐N/A ☐**YES. Briefly explain:**

The measure is adopted under the Internal Regulations of the Audit and Risk Committee of the Board of Directors, which provides in Article 10, paragraph 3, the following duty for this Committee: *"To prepare the Committee's annual management report, to be included in the Integrated Sustainable Management Report."*

Additionally, the Internal Regulations of the Corporate Governance and Sustainability Committee provides in Article 10, paragraph 10, item e, the following duty for this Committee: *" Study and recommend, if it so decides, the following matters for the consideration and determination of the Board of Directors: (...) e. The annual corporate governance report and its presentation to the General Shareholders' Meeting. Said report must demonstrate fulfillment of the Corporate Governance Code as well as the tasks carried out by the Board of Directors and its support committees. (...)"*.

On the other hand, Article 23, paragraph 11 of the Corporate Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024), establishes that the Board of Directors, together with the President, shall present the Company's management report for approval by the General Shareholders' Meeting.

Said regulations can be consulted on Ecopetrol's web page, [www.ecopetrol.com.co](http://www.ecopetrol.com.co).

The Integrated Sustainable Management Report and annual Corporate Governance Report, which are presented for the consideration of the shareholders at the Ordinary General Shareholders' Meeting, contain information that explains, among other things, specifics on the work performed by the Audit and Risk Committee during the respective period and reflects the fulfillment of their duties. For the 2024 General Shareholders' Meeting, said reports were included in the agenda.

Additionally, Article 12 of the Internal Regulations of the General Shareholders' Meeting establishes that the members of the Board of Directors can attend the meetings of the highest corporate body.

The Audit and Risk Committee, according to its Internal Regulations, includes the following duties, among others:

- "Evaluate the candidates and propose to the General Shareholders Meeting the election of the Statutory Auditor in accordance with the corporate bylaws and recommend the approval of

additional duties to be performed by the Statutory Auditor and that are allowed under Article 207 of the Commercial Code and the securities laws of the United States.

- Verify that the candidates to exercise the position of Statutory Auditor and the current Statutory Auditor are not involved in any of the causes of inability and incompatibility and that they comply with the independence criteria established in the applicable legislation and in Ecopetrol's corporate bylaws.
- Monitor the work of the Statutory Auditor and/or External Auditor in order to issue an opinion on the reasonability of the quarterly and annual Financial Statements in accordance with applicable legislation. Furthermore, to review the Statutory Auditor's report prior to the publication of the financial results.
- Assess the dissatisfactions expressed by the shareholders to Ecopetrol's Shareholder Relations Office or whichever acts in its stead in relation to the Statutory Auditor's work and, if necessary, present the case to the General Shareholders' Meeting, which will decide on the matter."

Consequently, the Chairperson of the Committee, in compliance with their duties, attends the General Shareholders' Meeting and recommends the candidate to exercise the duties of Statutory Auditor and answers any concerns the shareholders may have thereof.

Ecopetrol S.A. has implemented the following assessment mechanisms for its Board of Directors:

- Qualitative assessment: is an annual self-assessment performed by the Board of Directors and annually measures, both individually and as a collegiate body, the desirable behaviors for its proper functioning, such as knowledge, quality of information, performance results, exercise of duties, leadership, and engagement.
- Quantitative assessment: an annual assessment that measures the performance of the indicators established in the balanced management scorecard for Ecopetrol.
- External assessment: assessment of the performance of the Board of Directors carried out by an independent third party every two or three years, staggered with the annual assessments carried out by the same Board.
- Peer assessment: annual assessment performed by the Board of Directors on the performance, knowledge, and leadership of its peers to identify improvement opportunities.

Additionally, it is important to note that numeral 7 of Article 10 of the Internal Regulations of the Corporate Governance and Sustainability Committee of the Board of Directors, which was not modified in 2024, establishes that said Committee must be familiar with and review the results of the assessments of the Board of Directors of Ecopetrol in order to recommend to the Board the appropriate measures.

In February 2024, the Board of Directors, through its Corporate Governance and Sustainability Committee, was provided the results of the 2023 assessment that included the self-assessment, peer assessment, and 360 assessment conducted by the Administration, whose results included the

following elements: knowledge of its members, access to information and preparation for meetings, participation of its members, and the efforts advanced by the support committees.

Likewise, in December 2023, the government entity that oversees the Nation's interests within the Ministry of the Treasury (*Dirección General de Participaciones Estatales* (DGPE) of the *Ministerio de Hacienda y Crédito Público* (MHCP)) directed an assessment conducted by the Board of Directors. For the Board of Directors of the subsidiary companies of the Ecopetrol Group, a self-assessment is conducted annually, which includes an assessment of the behavioral dynamics, responsibilities, and structure of the board of directors among peers.

**Measure No. 21: Conflicts of Interest****21.1. The Company has defined and formalized a policy and procedure in its internal regulations regarding awareness, management, and resolution of conflicts of interest, whether direct or indirect through related parties, that may affect members of the Board of Directors and other Administrators.****21.1 Implemented measure**YES ☒NO ☐N/A ☐**YES. Briefly explain:**

The members of the Board of Directors and the employees of Ecopetrol, including its administrators, are subject to the disqualification regime contemplated mainly in the Political Constitution, the Commercial Code, Law 80 of 1993, Law 1474 of 2011, Law 1150 of 2007, Law 1952 of 2019, Law 2094 of 2021, Law 2195 of 2022 and others that modify or complement these, as applicable, which define conflict of interest situations categorized as a disqualification or incompatibility as a result of either specific circumstances (directly of the employee), or due to their relationship with third parties and, consequently, disqualify these employees from performing certain activities in Ecopetrol.

Likewise and in accordance with the law, the internal regulations include, among others, numerals 23 and 34 of Article 23, numeral 17 of Article 31, and Articles 46, 49, and 50 of the Corporate Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024), the Corporate Governance Code, the Internal Regulations of the Board of Directors, the Code of Ethics and Conduct, and the Guidelines for the Handling and Prevention of Conflicts of Interest and Ethical Conflicts, provisions which expressly define a company's policy and formal procedure for the recognition, handling and resolving of conflict of interest situations and possible consequences should there be a noncompliance situation therewith.

The aforementioned norms refer to the conflicts of interest, disqualifications, and conflicts regime applicable to Ecopetrol, define the latter, and establish the direct or indirect situations that may affect the President, members of the Board of Directors, employees, and third parties related to the Company, and specifically specify the procedure that must be followed to disclose, handle and resolve these situations, as well as some examples to better identify behaviors that might be an infringement thereof.

Chapter VIII of Ecopetrol's Corporate Governance Code also refers to the conflict-of-interest circumstances that may arise in the Company due to the relationship between administrators and workers with third parties (shareholders, suppliers, customers, and contractors).

A document titled Declaration Form - Conflict of Interest, Disqualification, and Incompatibility is provided to report conflicts of interest, as well as the form provided in the tool "EMPLEADO CENTRAL - SUCESSFACTORS".

Regarding the members of the Board of Directors, a declaration form has been established for disclosing related parties, conflicts of interest, and independence for Board members, which aims to collect the necessary data to comply with the provisions of International Accounting Standard No. 24 regarding disclosure of information; the norms of the PCAOB-AS 2410 or AS No.18; Regulation S-K PART 229 - Standard Instructions for Filing Forms under Securities Act of 1933, SEC and Law 964 of 2005, Article 44.

Likewise, Chapter 3.27 of the Accounting Policies Manual for the Ecopetrol Group GEE-M-003 establishes requirements for identifying and revealing information on Related Parts.

The members of the Board of Directors, in turn, fill out the Declaration Form of Information and Obligations for Members of the Board of Directors of Ecopetrol S.A., whereby they declare their commitment to comply with the obligations and responsibilities inherent to their position, which include, among others: know and apply the Corporate Bylaws, the Corporate Governance Code, the Regulations of the Board of Directors of Ecopetrol and the Regulations of the Committees to which they belong, as well as the following documents that support the Business Compliance Program: Code of Ethics and Conduct, handbooks, manuals, instructions and procedures that regulate compliance risks (fraud, corruption, bribery, money laundering, terrorist financing, violations of the FCPA), internal regulations that regulate gifts and hospitalities, conflict of interest, disqualifications, conflicts and prohibitions; and to report situations that may generate their formation in order that the relevant measures can be adopted according to internal procedures, or to seek advice regarding the situation if uncertain.

For its part, in Article 46 of Ecopetrol's Bylaws, its administrators, employees, and beneficiaries expressly adopt a policy of zero tolerance for acts of fraud, bribery, corruption, violations of the Foreign Corrupt Practices Act ("FCPA"), money laundering, terrorist financing and the proliferation of weapons of mass destruction, and expressly reject any behavior that may constitute a violation of the Political Constitution of Colombia and domestic and foreign laws, as applicable. Likewise, they reject any conduct that violates or ignores the provisions of the Code of Ethics and Conduct and internal regulations, including those related to conflicts of interest.

Furthermore, it is worth noting that Ecopetrol has defined in its Internal Regulations (Code of Ethics and Conduct, applicable to the members of the Boards of Directors and workers of Ecopetrol S.A. and its Group, and in the Code of Ethics and Conduct for suppliers, contractors and allies and any legal or natural persons who have any relation with the Ecopetrol Group, in addition to the conflict of interest

situations regulated by the Constitution and the Law, other particular circumstances, direct or indirect, which may imply opposing interests, decreased objectivity, equity, independence or impartiality, must also be reported in order to take measures to prevent their occurrence.

A series of internal controls have been established to guarantee the previously referenced regulations are applied.

**21.2. The procedure for managing conflicts of interest distinguishes their nature,** differentiating between sporadic or permanent conflicts of interest. If the conflict of interest is sporadic, the applicable procedure indicates the rules and steps to follow, which should be relatively easy to administer and difficult for the affected person to avoid. In the case of permanent conflicts of interest, the procedure considers that if this situation affects all of the Company's operations, it should be understood as a reason for the mandatory resignation by the affected party since it makes it impossible for them to exercise the duties of their position.

**21.2 Implemented measure**

N/A ☐

**YES. Briefly explain:**

Ecopetrol has a comprehensive zero-tolerance policy regarding acts of corruption, including conflicts of interest. Consequently, the Guidelines for the Handling and Prevention of Conflicts of Interest and Ethical Conflicts regulate and collect all the legal and internal regulations on this matter, expressly defining, among others, their characteristics and classification according to their nature and temporality. Said provision exemplifies the facts that materialize them, specifying those that are elevated to the categories of disqualifications, conflicts, and prohibitions.

Pursuant to the above, numeral 3.1.3 of said instructions indicates:

There will be a conflict of interest when the action to be carried out presents any of the following characteristics:

- Lack of objectivity, independence, or impartiality; or,
- A particular interest of one's own or of a third party is advantaged to the detriment of the Company.

According to the originating event and the period in which they arise, conflicts can be classified into the following categories, which are not fully representative or exclusive:

- Permanent: when the condition persists over time by provision of law, by judicial or administrative decision, by reason of the association with the Company, due to the interest in the matter under determination, or by the relationship with the person interested therein.
- Sporadic: those that occur when the event that originates them is temporary, limited to a specific matter, and does not last over time.
- Direct: when the interest in the matter relates to the person who participates, manages, or is responsible for making the decision.
- Indirect: when whoever has an interest in the matter is different from the person responsible for the procedure or the decision-making or is a third party, whether a natural or legal person.
- Real: when the worker must perform an action, and at the time thereof, there is a particular interest that could influence it.
- Surviving: one in which the conflict appears during or after the employment or contractual relationship.
- Potential: when the situation may arise, and the action that executes it has not materialized.
- Apparent: although the existence of a particular interest is not observed, a third party could consider there is one, in which case explanations must be provided to clarify the situation.

Regarding conflicts that, by their nature, can be managed, the guidelines define the steps to follow to mitigate their materialization. Numeral 3.3 particularly specifies the duty to disclose conflict situations,

as follows: whenever a member of the Board of Directors, legal representative, worker, offeror, contractor, supplier, client, partner, or associate (including joint ventures) is in a conflicting situation, they must refrain from participating in the activity and any respective decision-making. Additionally, they have the duty to reveal it in writing and immediately. The guidelines establish applicable parameters and procedures to resolve conflicts, indicating precise rules for administrators, workers, bidders, contractors, suppliers, clients, partners, or allies, and also indicate means to ask for clarification through the business ethics line in the event the beneficiaries have any doubt regarding the existence of a conflict situation, expressing their dilemma and obtaining the respective guidance. Here, each situation is analyzed in light of the applicable regulations, and based thereon, the applicable mitigation mechanisms are defined, and the respective assistance is provided according to the conflict classification.

In addition to the foregoing, this guideline refers to and comprehensively includes all the norms that determine the prohibitions, disqualifications, and conflicts that may arise due to or on the occasion of a conflict of interest, including therein any conflict modality or category (sporadic, permanent, etc.) expressly indicating in paragraph 3.1.4 the duty to comply with all the rules contained therein, namely the obligation to comply with the established procedure and to abstain from acting or participating in the respective activity or decision. Likewise, said internal provision specifically explains that disqualifications are effectively prohibitions that determine the ineligibility of certain people to be elected or appointed in a public position, to exercise these, fulfill public functions, or to enter into contracts with entities with State participation and that conflicts imply the impossibility for the person to simultaneously perform certain activities or exercise concurrently the attributions inherent to the function they perform and those corresponding to other positions or jobs, or have two ties or occupy two positions. In this manner, all the rules and duties that the legal system establishes on the matter are understood to be included in the Company's internal regulations, including those that determine permanent conflicts, as highlighted in the examples in section 3.2. of the guidelines (when the provisions of Law 1952 of 2019 are referenced).

Additionally, said guidelines establish that the members of the Board of Directors and the recipients of the guidelines must sign and update annually, as applicable, the Document of Independence - Declaration of Conflicts of Interest or the format established by the Corporate Compliance Directorate of Ecopetrol S.A., in order to report potential conflict situations to which they are exposed, as well as the direct or indirect relationships that they maintain between them, or with other entities or structures belonging to the Ecopetrol Business Group, or with the issuer, or with suppliers, or with clients or with any other stakeholder, from which conflict of interest situations could arise or influence their decision-making and fulfillment of their duties.

However, whenever a potential conflict situation arises, the disclosure must be made immediately, following the procedure established in these guidelines. The annual report does not exclude the duty to disclose conflict of interest situations.

Moreover, it is noted in the norm that the requirements established by the law and the Internal Regulations of Ecopetrol S.A. on the matter must be met, and it expressly mentions that any person who is interested in joining Ecopetrol S.A. as a worker must fill out the form provided for this purpose by the Corporate Compliance Directorate.

Regarding compliance with the duties contained in the guidelines, Ecopetrol's Ethics and Compliance Management monitors the reports, updates, and compliance with mitigation actions carried out and, based thereon, will carry out training and communication activities to prevent conflicts of interest.

Finally, Ecopetrol specifically and precisely establishes in numeral 3.5 of the aforementioned guidelines the labor and contractual consequences resulting from the ethical conflicts and/or conflicts of interest, indicating that ignorance of the rules and regulations established in said guidelines leads to the violation of the Code of Ethics and Conduct and generates the following responsibilities and consequences:

- Labor: ethical meetings, letters of warning, variable remuneration affected, termination of the individual employment contract, among others.

- Disciplinary: reprimand, fine, suspension, special disqualifications, dismissal, and general disqualification from performing public duties, as the case may be.
- Pre-contractual: inadmissibility of the offer and the decision not to continue inviting the offeror in subsequent opportunities.
- Contractual: applicability of penal clauses for breach of the ethical clause, potential early contractual termination, sanctions included in the internal regulations, and other provisions that the parties determine in the contract.
- Criminal: fine, interdiction of rights, disqualifications, and even imprisonment, according to the circumstances.

For these purposes, the corresponding internal procedures will be followed.

The aforementioned guidelines are published on the Company's website and in the repository provided for the employees' access.

**YES. Briefly explain:**

The members of the Board of Directors, legal representatives, Senior Management, and other employees must report, before their hiring, annually, or a circumstance arises that so requires it, any potential conflicts of interest situations or disqualifications and conflicts that encompass not only Ecopetrol but also those related with its Group. With respect thereof, the corresponding verifications are made, and if deemed necessary, the appropriate mitigating measures are adopted (See Bylaws, Corporate Governance Code, Internal Regulations of the Board of Directors, Code of Ethics and Conduct, Guidelines for the Handling and Prevention of Conflicts of Interest and Ethical Conflicts.

The aforementioned provisions, as previously mentioned, determine the events that may generate a conflict of interest, the duty to disclose them, and the procedure to be followed. Members of the Board of Directors must report conflicts of interest to this same body, which must adopt the respective measures. Senior Management must report their conflicts to the President of the Company, who is their direct superior. The Corporate Ethics and Compliance Management maintains a record and registry of these reports.

The Corporate Compliance Directorate manages a matrix of related parties through which potential conflicts are monitored. Regarding related parties, Chapter 3.27 of the Accounting Policies Manual for the Ecopetrol Group GEE-M-003 includes everything related to their identification and disclosure requirements in separate and consolidated financial statements, among others. The forms specified above are used to submit these reports, and the ethical hotline is also available to address issues or doubts about whether a situation generates a potential conflict.

The aforementioned guidelines establish that, in addition to the provisions of Ecopetrol's Bylaws, the Regulations of the Board of Directors, and the Corporate Governance Code, the members of the Board of Directors, legal representatives, members of Senior Management and other Company administrators, must periodically sign and update, as applicable, the Document of Independence - Declaration of Conflicts of Interest or the form established by the Corporate Compliance Directorate of Ecopetrol S.A., in order to report conflict situations or those situations that might influence their

decision-making or the fulfillment of their duties to which they might be exposed, as well as the direct or indirect relationships that they maintain between them, or with other entities or structures belonging to the Ecopetrol Group, or with the issuer, or with suppliers, or with clients or with any other stakeholder. However, this provision warns expressly that the periodicity established does not limit the disclosure insofar as, whenever a potential conflict situation arises, the disclosure must be made immediately, nor does this same periodicity eliminate the duty for the disclosure should the event occur in the time between updates.

In addition to the above, the guidelines instruct that it is necessary to comply with the requirements established in the law and the Internal Regulations of Ecopetrol S.A. on this matter and that Administrators must comply with that established in numeral 7 of Article 23 of Law 222 of 1995.

It is important to note that the objective of the International Accounting Standard No. 24 (IAS 24) - Related Party Disclosures is to ensure that an entity's financial statements contain the disclosures necessary to report its financial position and results for the period regarding transactions with related parties, as well as their outstanding balances, including commitments and other relevant information. An entity or person is related to the entity when there is control, significant influence, or when he/she is a key member of management.

Ecopetrol has identified its related parties within the framework of the International Financial Reporting Standards (IFRS) in order to consolidate the financial results of the Business Group and comply with the disclosure requirements of the aforementioned standards. In the consolidated financial statements, there is a specific note to report the related parties of Ecopetrol S.A.

Regarding the key members of Management, Ecopetrol S.A. defined a related parties form to be filled out by the Board of Directors and members of Senior Management in order to comply with the provisions of IAS 24 regarding the information of those related parties.

With respect to key management members, Ecopetrol S.A. defined a related party form to be filled out by the Board of Directors and members of Senior Management to comply with the provisions of IAS 24 with respect to the information regarding those individuals who have the authority and responsibility to plan, direct and control the entity's activities, directly or indirectly, including any director or management (regardless of whether they are an executive).

Additionally, the document ECP-CAP-G-2005, "Guide to Transfer Prices Between Economically Related Parties of Ecopetrol" (latest update on November 30, 2024), aims to establish the parameters that must be employed to compensate the provision of services and the acquisition of goods between Ecopetrol S.A. and its economically related parties, ensuring both compliance with the transfer pricing obligations established by the tax authorities of each country, such as IAS 24, as well as with the provisions of numeral 34 of Article 23 of Ecopetrol's Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024).

In 2024, the members of the Board of Directors and Senior Management completed the documentation on related parties. ### YES. Briefly explain:

Ecopetrol S.A.'s Board of Directors, in exercising its role to provide strategic guidance, oversees that all economic relations of Ecopetrol with its affiliates are carried out according to that established by the Law, the regulations regarding the prevention, handling, and resolution of conflicts of interest, and, in all cases, under market conditions. The aforementioned is in accordance with the provisions of numeral 35 of Article 23 of the Corporate Bylaws of Ecopetrol (last amended and ratified by the General Shareholders' Meeting on March 22, 2024).

Ecopetrol has tools such as the document ECP-CAP-G-2005, "Guide to Transfer Prices Between Economically Related Parties" of Ecopetrol (latest update on November 30, 2024), which includes the criteria recommended by the Code of Best Corporate Practices and which defines the parameters that must be considered to compensate transactions on goods and services between Ecopetrol and its economically related parties so that these are consistent with those carried out with and between third parties. Regarding operations with related parties, the applicable legal regulations contained in Articles 260-1 et seq. of the Tax Code are also considered.

Furthermore, the Special Group Report, which is referenced in Article 29 of Law 222 of 1995, establishes that all operations between related parties must be disclosed in the notes to the financial statements.

Additionally, it must be noted that, along with the aforementioned Report, the Management reports quarterly to the Board of Directors regarding the status of operations, agreements, and contracts that the Company has entered into with its affiliates during the immediately preceding semester, indicating the conditions established therein, which in all cases agree with those of the market.

The aforementioned underscores that Ecopetrol has a comprehensive policy in place that allows the Company to verify, value, and disclose to third parties that its transactions between related parties are carried out under market conditions. Moreover, the Company's Senior Management is involved in this oversight.

Thus, Ecopetrol abides by the recommendations of the Superintendence of Finance of Colombia on the valuation and disclosure of operations by and between related parties. It must be considered that although the Board of Directors reviews, analyzes, and studies the operations between related parties according to the conditions set forth above, approving each one of these operations among related parties is not included within the duties of this corporate body listed in Article 23 of the Corporate Bylaws.

**24.6 Implemented measure**YES ☒NO ☐N/A ☐**YES. Briefly explain:**

Ecopetrol S.A. has a remuneration policy for the Company's President and other members of Senior Management.

According to numerals 2 and 14 of Article 23 of the Corporate Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024), the Board of Directors must establish the remuneration of the President of the Company under the responsibilities of the position and market practices, as well as to define the criteria in the Remuneration Policy. Additionally, numeral 31 of paragraph d of the Corporate Bylaws establishes a duty of the Board of Directors to issue the remuneration and culture guidelines for the Ecopetrol Group.

The guidelines for determining and recognizing fixed and variable remuneration and benefits granted by Ecopetrol, whose scope includes all employees, are defined in the internal regulations "Guidelines for Managing Total Remuneration at Ecopetrol S.A." Additionally, the Company also has procedures for granting short-term variable remuneration and handling long-term incentives, which set all the conditions for their allocation and recognition, taking into consideration the fulfillment of corporate goals, defined metrics in each plan, and payment approval granted by the Board.

Long-term incentives (LTI) are a component of the remuneration package of senior-level employees and certain critical positions and are a fundamental element because it is tied to the achievement of strategic objectives that guarantee the sustainability and protect the future of the Company and incentivize cohesion of the senior-level management teams.

More and more companies have incorporated ILP into their compensation schemes, aligned with international good practices, which mobilize exceptional and sustainable results in the face of stakeholder expectations. The ILPs for Ecopetrol are based on the following premises: (i) they favor the interests of the shareholders because their defined targets protect the sustainability of the long-term sustainability Company; (ii) it is self-financing, as it is paid for with the resources it generates; (iii) its goals are aligned to the Business Plan (3 years) with an additional challenge on them ("stretch

target"); (iv) generates cohesion among the management team and some critical positions regarding the achievement of the shareholders' strategic.

The ILP is a percentage of the employee's fixed annual compensation, and the money is delivered to a financial institution authorized to invest it in Colombia in Ordinary shares of Ecopetrol and is only transferred to the employee if the Plan's targets are met and the Board gives payment authorization.

The ILP targets are valid for three years; each year, a new edition of the Plan is launched with demanding objectives associated with the Group's strategy, and the participants are defined. At this time, there are three ongoing plans for the periods 2022-2024, 2023-2024, and 2024-2026, which will be recognized between April and June 2024, 2026, and 2027, respectively, if the defined targets are met and according to the conditions defined in the guidelines of each plan and the Board gives payment authorization.

YES ☒ NO ☐ N/A ☐

**YES. Briefly explain:**

Chapter VII: Controls; Section 2: Internal Controls; numeral 2.1 of the Corporate Governance Code established that:

Ecopetrol is committed to establishing and maintaining an Internal Control System, understood as the process carried out by all the people in the organization, supervised by the Board of Directors, Senior Management, and control entities, to provide reasonable safety in the activities needed to achieve its goals, framed within the recommended practices of the COSO international reference framework (Committee of Sponsoring Organizations of the Treadway Commission - Enterprise Risk Management). In accounting matters, the Internal Control System ensures that the Company's assets, liabilities, and

equity are properly managed and administered and that, with reasonable detail, accurately and correctly reflect the transactions and divestments of the Company's assets.

For this purpose, Ecopetrol has established an organizational structure that supports risk management and the Internal Control System, assigning specific responsibilities to the Board of Directors, the Audit and Risk Committee of the Board of Directors, the President, and the Risk Management and the Internal Risk Management and Internal Control areas (Risk Management and Internal Control Assurance Management ) of the Directorate Compliance of Ecopetrol. In this matter, numeral 37 of Article 23 of the Corporate Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024), includes as a duty of the Board of Directors to supervise the effectiveness of the integrated internal control and risk management systems.

Considering that Ecopetrol S.A. is the Parent Company of the Group, the Board of Directors, through its Audit and Risk Committee, secures the existence of a control architecture with a consolidated scope. Following the provisions of the Internal Regulations of the Audit and Risk Committee of the Board of Directors of Ecopetrol S.A., the Committee is a body that assists in the administration performed by the Board of Directors and its highest control body, in charge of the oversight, management, and effectiveness of the Ecopetrol Group's Internal Control System. The Committee is knowledgeable about and analyzes, within the framework of its duties and beforehand, the issues that will be considered by the Board of Directors and, as the case may be, provide its recommendations so that the latter may adopt the corresponding applicable determinations. Likewise, it will supervise compliance with the internal audit program and ensure that the preparation, presentation, and disclosure of financial information are consistent with the provisions of the law, making the appropriate determinations. This Committee supports the Board of Directors in the supervision of the Internal Control System. Its duties include the following:

- Recommend to the Board of Directors the approval of the guidelines, policies, principles, models, and methodologies to be applied in internal control matters, verify the implementation of its structure under the COSO model, and the adequate adoption of financial reporting procedures. Furthermore, to follow up on the correct operation of the Internal Control System. Said duty is laid out in Chapter 4: Committee Duties, numeral 18 of Article 10 of the Internal Regulations of the Audit and Risk Committee of the Board of Directors.
- Oversee the effectiveness of the duty of regulatory compliance and of prevention and control of fraud, corruption, bribery, money laundering, terrorist financing, and the financing of the proliferation of weapons of mass destruction through a biannual report presented by the Compliance Officer and report to the Board of Directors all activities carried out. Said duty is laid out in Chapter 4: Committee Duties, numeral 33 of Article 10 of the Internal Regulations of the Audit and Risk Committee of the Board of Directors.
- Verify the implementation of the Risk Management System, which must include the identification, assessment, treatment, and monitoring of Company risks, their materialization, and the respective analysis of the impacts of the potential materialization thereof. Said duty is laid out in Chapter 4: Committee Duties, numeral 34 of Article 10 of the Internal Regulations of the Audit and Risk Committee of the Board of Directors.
- Understand and monitor the management of the subordinated companies that comprise the Group through a semi-annual management report containing information on the following matters that may impact the consolidated financial information: (i) internal control model and process; (ii) independence of the Statutory Auditor; (iii) ethical, corruption, accounting, and financial fraud complaints; and (iv) risk management system. Said duty is laid out in Chapter 4: Committee Duties, numeral 40 of Article 10 of the Internal Regulations of the Audit and Risk Committee of the Board of Directors.

Additionally, Ecopetrol has defined handbooks and instructions that contain the guidelines on risk and internal controls that apply to Ecopetrol S.A. as well as the Group companies and seeks to provide reasonable assurance about the fulfillment of corporate objectives. There is an Integrated Risks Management Manual for the Ecopetrol Group, Internal Controls System Manual for the Ecopetrol Group, a Procedure for the Management of Process Risks for the Ecopetrol Group, a Procedure for the

Management of Business Risks for the Ecopetrol Group, and a Procedure for the Management of Controls and Appropriate Relationship Actions for the Ecopetrol Group.

Likewise, Ecopetrol S.A. has support and assurance entities at the consolidated level handling internal control, such as Risk Assurance and Internal Control Management.

**YES. Briefly explain:**

As explained in detail in the response to measure 25.1, Ecopetrol is the parent company of the Group. In that sense, its Board of Directors, through its Audit and Risk Committee, encourages the existence of a consolidated control architecture.

The Code of Ethics and Conduct, which covers the whole of the Group - that is, all Group Companies must adopt its rules and guarantee its propagation and application - specifies there is an Internal Control System that, for all accounting matters, ensures that the Company's assets, liabilities and equity are properly managed and administered and that, with reasonable detail, they accurately and correctly reflect the transactions and divestment of the Company's assets. All people who work in the Group are part of the internal control system and strictly comply with the controls under their responsibility so that the accuracy of the financial statements can be certified by auditors and government authorities in Colombia and abroad. Likewise, the Ecopetrol group has a robust and comprehensive Compliance Program that covers associated risks, risk management, and internal controls.

According to the above, Ecopetrol S.A. has corporate guidelines for the Group's subordinate companies so that they may execute, implement, and ensure the effectiveness of the Compliance Program System, through which the elements of the Integrated Risk Management System (SRI for its Spanish acronym), Internal Control System (SIC), and the Compliance Management System (SCU), are carried out. The Compliance Program System establishes comprehensive guidelines for risk management, internal control, and compliance (fraud, corruption, bribery, money laundering, financing of terrorism, financing of the proliferation of weapons of mass destruction, violations of anti-bribery regulations such as the FCPA, protection of free competition and other rules related to transparency resulting from regulations issued by competent authorities, as well as national and international best practices), encouraging all-inclusive ethical behavior in the organization under internal regulations, legal provisions and best practices adopted, and supporting the necessary control environment to identify possible deviations.

Operating structures are in place to comply with the guidelines concerning subordinate companies. These are described below, along with the responsibilities each carries:

Executor: under this structure, the Risk, Internal Control Assurance, and Ethics and Compliance Managements of Ecopetrol S.A. execute the guidelines defined by the Corporate Compliance Directorate for risk management, internal control, and compliance (fraud, corruption, bribery, money laundering, financing of terrorism, financing of the proliferation of weapons of mass destruction, violations of anti-bribery regulations such as the FCPA, protection of free competition and other rules related to transparency resulting from regulations issued by competent authorities, as well as national and international best practices) of the subordinate. The subordinate and its officers are responsible for executing the Company's processes, while the Managements of the Corporate Compliance Directorate is responsible for executing the specific compliance matters.

Router: this structure includes a functional report from the Compliance Manager, or whoever acts in their stead, of the subordinate companies to the Corporate Compliance Directorate of Ecopetrol S.A. Ecopetrol S.A. monitors compliance with the guidelines executed by the subordinate. The subordinates must designate the Compliance Manager, who will have the role of Compliance Officer following the applicable regulations for each company and each country. The work carried out is evidenced through periodic compliance reports of the subordinates provided to Ecopetrol on a biweekly, monthly, quarterly, semi-annual, annual, and as-needed basis, according to the nature of each report. These reports are consolidated, monitored, and analyzed by the Risk, Internal Control Assurance, and Ethics and Compliance Managements of Ecopetrol S.A.

Specifically, regarding risk and internal controls, there are internal handbooks and guidelines that apply to Ecopetrol S.A. and the Group companies, and they seek to provide reasonable assurance about fulfilling corporate objectives. There is an Integrated Risk Management Manual, an Internal Controls System Manual, a Procedure for the Management of Process Risks, a Procedure for the Management of Business Risks, and a Procedure for the Management of Controls and Appropriate Actions.

The objectives of risk management are included in the Integrated Risk Management System, which establishes guidelines for its administration through the Single Risk Management Cycle composed of the following stages: i) Plan, ii) Identify, iii) Evaluate, iv) Treat, v) Communicate, vi) Follow-up , vii) Record and Report. This cycle serves to identify the risks that may impact the Company's strategy and strategic objectives of the Company (business risks). These risks are evaluated according to their probability of happenstance and impact should they occur in order to identify the degree of exposure according to established tolerance limits and make decisions to avoid, mitigate, transfer, or accept these. The follow-up and review serves to corroborate that the risks identified, evaluated, and treated fall within the tolerance and acceptance levels defined by monitoring the execution of mitigating measures while identifying alerts and materializations, along with possible changes in the risk environment. The results are reported to and overseen by the Audit and Risk Committee of the Board of Directors through the information contained in management reports and presentations made by the Corporate Compliance Directorate.

- 26.6.** **The Company has a risk allocation policy**, approved by the Board of Directors, which establishes the risk limits that can be directly managed by each level in the Company.

**26.6 Implemented measure**YES ☒NO ☐N/A ☐**YES. Briefly explain:**

Chapter VII: Controls; Section 2: Internal Controls; numeral 2.1 of the Corporate Governance Code approved by the Board of Directors established that Ecopetrol defines an organizational structure that endorses risk management and the Internal Control System, assigning specific responsibilities to the Board of Directors, the Audit and Risk Committee of the Board, the President, and the Risk Management and Internal Control area of the Corporate Compliance Directorate of Ecopetrol.

In fulfilling the abovementioned guidelines, under the provisions of paragraph 35 of Article 10 of the Internal Regulations of the Audit and Risk Committee of the Board of Directors, as well as the provisions of paragraph 37 of Article 23, "Duties of the Board of Directors" of the Corporate Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024), the Board of Directors approves the business risks after having been analyzed and upon the recommendation from its Audit and Risk Committee. The various vice presidencies then manage the resulting business risks according to the responsibilities assigned to each risk.

In the case of process risks, their management is the responsibility of the process owners according to the standard COS 2013 adopted with the approval of the Board of Directors under the provisions of numeral 18 of Article 10 of the Internal Regulations of the Audit and Risk Committee of the Board of Directors, as well as the provisions of paragraph 37 of Article 23, "Duties of the Board of Directors" of the Corporate Bylaws.

The tolerance and acceptance limits are established in the Risk Assessment Matrix (RAM) approved by the Board of Directors, which establishes the maximum limits of exposure to each identified risk.

Likewise, Integrated Risk Management, under the Corporate Compliance Directorate of Ecopetrol, serves as the head area of the Integrated Risks Management System. As such, it steers, issues guidelines, and monitors this System. For this purpose, it has issued the Integrated Risk Management Guidelines, which include the roles and responsibilities for managing risks at the strategic, tactical, and operational levels.

**YES. Briefly explain:**

In the Internal Controls Manual of the Ecopetrol Group, one of the premises for the Internal Control System is the need to encourage self-control, which is defined as the attitude of performing daily work with self-criticism and self-management, wherein all those that interact therein are responsible for managing their risks and operating their controls to provide a reasonable safety, seeking a transparent and effective execution that facilitates the achievement of organizational goals. Likewise, the

Procedure for the Management of Treatment Controls and Actions in the Ecopetrol group establishes that self-control is constantly carried out to confirm that the mitigating factors operate according to their design and the reality and context of the process or organization.

As part of this self-control and supervision exercise, periodic certifications and self-assessments are carried out, including assessing the effectiveness of the controls, the relevant risk issues, the mitigation measures, and the processes' key risk indicators (KRIs).

Concerning the above, the Ecopetrol Group's Code of Ethics and Conduct includes the following:

(...) The Code of Ethics and Conduct is our binding roadmap(...) we must ensure that our daily actions are characterized by assuming responsibilities that extend beyond the workplace, as well as the guidelines established in the Code of Ethics and Conduct and the provisions of applicable national and international laws, adhering to the behavior standards of the Ecopetrol Group as the guiding norm. All individuals within our value chain must adhere to the conduct and behavior guidelines outlined in the Code of Ethics and Conduct for suppliers, contractors, and stakeholders.

(...) We Ensure the Integrity of Financial Information: (...) In order to safeguard the integrity of financial information, the EG has an internal control system that, in accounting matters, ensures that the company's assets are handled and managed properly and that, with reasonable detail, it accurately and correctly reflects the transactions and dispositions of the company's assets.

(...) All the people who work in the Group are part of the internal control system, and we strictly comply with the controls under our responsibility so that the accuracy of the financial statements can be certified before auditors and government authorities in Colombia and abroad." All financial information that must be reported internally or externally must follow the rules for the approval of the disclosure of relevant and non-relevant information, be correct, and ensure completeness and accuracy; therefore, any error must be reported immediately. Accounting records will be supported in a secure, reliable, and systematic manner.

We act with integrity when: (...) We rigorously execute the controls under our responsibility to prevent the materialization of risks for the company. Internal controls are designed to protect our work, which is why we all are part of this system.

- We act responsibly by rigorously and knowledgeably fulfilling our role as the first line of defense according to the Control Architecture. This means that all of us who make up the Ecopetrol Group are responsible for carrying out our daily tasks with commitment, rigor, and attention to detail, and we are the ones who must identify, assess, address, control, and communicate the risks to which we are exposed. Thus, we empower ourselves to achieve effective management and promote the culture of control that we all uphold. Risk management allows us to avoid or mitigate their materialization and the generation of adverse consequences.

Likewise, through risk management cycles that are carried out with the participation of each process owner, vice-presidents, and other assigned parties in each area, the related guidelines regarding risks and the tolerance and acceptance limits established in the Risk Assessment Matrix (RAM) are communicated.

Furthermore, the Integrated Risk Management System includes a cultural plan encompassing change management and communication activities, including activities to disseminate the information regarding risks and training that cover all levels of the organization, the Board of Directors, and subordinate companies.

Additionally, concerning the approved exposure limits, Ecopetrol S.A. has declared its appetite for risk in the Corporate Governance Code, which includes the framework wherein the organization must ensure its long-term growth, sustainability, and value promise. Likewise, in both the procedures for business and process risks, those risks that need new mitigation measures if they do not lie within tolerable values for the organization are identified according to the risk assessment.

Ecopetrol encourages any worker, contractor, shareholder, or citizen who is aware of or suspects a situation that contravenes the Law, the Code of Ethics and Conduct, or any other internal regulation to use the appropriate channels to report the allegation (openly or anonymously) so that the situation may be assessed for its possible impact to the Company by the Audit and Risk Committee of the Board of Directors, the Corporate Compliance Directorate, or the Ethics and Compliance Management, so they may corroborate the events.

Currently, the tools and mechanisms for internal and external complaints at Ecopetrol are:

- Link: <http://lineaetica.ecopetrol.com.co>
- Web page: link to Ethics Hotline
- International hotline: (International toll-free number) 018009121013
- National hotline: in Bogotá +(57) 3103158600 or Extension 43900 for Ecopetrol employees
- Personally: before the employees of the aforementioned Management and/or directly with the Corporate Compliance Directorate or in the Ethics and Compliance Office
- All the complaints received through these channels are reviewed following the Ethical Affairs Management Procedure, a specific protocol for the review of complaints following the principles of the Code of Ethics and Conduct. This reinforces to the appellants that their identity will be protected, and if necessary, their anonymity will be safeguarded.

Our corporate complaints hotline has been administered by an international company since 2013, with extensive and acknowledged experience in the matter, that employs qualified and specialized personnel to handle complaints. This operator receives complaints about Ecopetrol and almost all the subordinate companies of the Business Group under the same corporate communication channel in order to ensure governance, centralized information management, conformity to guidelines and decisions, and, in general, control by the parent company over the Group's companies.

At Ecopetrol and its Group, there is a zero-tolerance policy regarding retaliatory actions against whistleblowers. This is expressly addressed in the Code of Ethics and Conduct and is detailed in the Whistleblower Protection Guide. Given the circumstances, Ecopetrol assures the reporting party of:

- Anonymity
- Confidentiality of the information and the content of their complaint
- Data protection
- No reprisals allowed
- Objective verification by the Corporate Compliance Directorate, an independent area of the company
- Possibility for the reporting party to follow up regarding their complaint, inquiry, or situation
- Once the matter has been verified, the reporting party or petitioner is always provided a response.
- If a person's physical safety is compromised, Ecopetrol employs its Physical Security Risk Management Department.

It is essential to highlight that the corporate hotline receives complaints and also requests, inquiries, and suggestions, which are handled as an advisory preventive mechanism to avoid violations of the Code of Ethics and Conduct or the norms related to compliance risks.

Concerning the knowledge the Board of Directors has on these cases, said collegial body has an Audit and Risk Committee that receives a report every six months on all matters handled by the Corporate Compliance Directorate. In some instances, contingent on the impact or object of the complaint, said Committee will directly handle the issues, adopting the corresponding decisions and measures under the Ethical Affairs Management Procedure provisions.

Periodic reports drafted on the trends in the types of claims received are presented quarterly to the Company's Ethics Committee. The latter also receives a report of all verified claims to discuss and determine the appropriate corrective actions.

Likewise, Article 10 of the internal Regulations of the Audit and Risk Committee of the Board of Directors establishes as its duties to:

- Know the issues related to effective compliance with the codes of Ethics and Good Governance derived from internal or external evaluations or claims made to the Board of Directors by shareholders and investors, among others, following the provisions of the Company's bylaws.
- Know about and monitor the periodic reports submitted by the Corporate Compliance Directorate, or the office that acts in its stead, regarding allegations of corruption, accounting, and financial fraud received by the Company and that impact Ecopetrol's Financial Statements.
- Supervise the efficiency of the regulatory compliance duty and the prevention and control of fraud, corruption, money laundering, financing of terrorism, and the financing of the proliferation of weapons of mass destruction through the semiannual report presented by the Compliance Officer and inform the Board of Directors of the activities carried out.
- Understand and monitor the management of the subordinated companies that comprise the Group through a semi-annual management report containing information on the following matters that may impact the consolidated financial information: (i) internal control model and process; (ii) independence of the Statutory Auditor; (iii) ethical, corruption, accounting and financial fraud complaints; and (iv) risk management system.

YES ☒ NO ☐ N/A ☐

**YES. Briefly explain:**

Article 33 of the Corporate Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024), establishes the policy for appointing the Statutory Auditor under the terms recommended by Colombia's Code of Best Corporate Practices:

- It is the duty of the General Shareholders' Meeting to appoint and remove the Statutory Auditor and set their fees. For this effect, it considers such factors as their suitability, professional experience in the auditing of similar companies, and market standards. (Article 15)
- The Company may only be elected to serve as Statutory Auditor or their alternate, may only be natural or legal persons duly inscribed in the Registry of the Central Board of Accountants of Colombia and who comply with the requirements established in Law 43 of 1990 or the norms that rule, modify, substitute it or are relevant. (Article 33)
- Objective and transparent pre-selection conducted by the Audit and Risk Committee of the Board of Directors: The Committee evaluates the candidates and provides a recommendation to the General Shareholders' Meeting, corroborating their eligibility based on the criteria of experience, service, costs, and knowledge of the sector. The shareholders may propose additional candidates for Statutory Auditor to the Audit and Risk Committee, provided that their profiles comply with the provisions of the law and these Bylaws. They may also express any dissatisfaction with the current Statutory Auditor to the Shareholder and Investor Service Office, with the Audit and Risk Committee as the entity that will evaluate the case so that it can be presented to the General Shareholders' Meeting, which will decide on the matter. (Article 33)

- Per that established in Article 206 of the Commercial Code or the norms that modify or substitute it, the term of the Statutory Auditor will be equal to that of the Board of Directors but may, in any case, be removed at any time by the General Shareholders Meeting through a vote representing half plus one of the shares present at the relevant meeting. (Article 33, third paragraph).
- In addition to the disqualifications and conflicts established in law, Ecopetrol's Statutory Auditor may not be anyone who has received income from the Company and/or its subsidiaries, where such income represents twenty-five percent (25%) or more of their latest annual income from the immediately preceding year, or persons who perform or exercise in the Company and/or its subsidiaries companies, directly or through third parties, services other than those of Statutory Auditor, thereby compromising their independence for exercising the position. The Statutory Auditor will be appointed for periods of four (4) years and may be reelected consecutively until reaching ten (10) years; they may then be rehired after one (1) period away from the position. The partner assigned to the Company must, in any case, rotate after reaching five years in this position. (Article 35)

According to the provisions of the Regulations of the Audit and Risk Committee of the Board of Directors, said committee has the duty to evaluate the candidates and recommend to the General Shareholders' Meeting the appointment of the Statutory Auditor per the Corporate Bylaws, as well as the approval of additional duties to be performed by the Statutory Auditor permitted under Article 207 of the Commercial Code and the laws of the United States securities market. They may be rehired after one (1) period away from the position. The partner assigned to the Company must, in any case, rotate after reaching five years in this position.

Consistent with the aforementioned, the statutory auditing firm of Ecopetrol S.A., Ernst and Young Audit S.A.S., has been reelected in 2024, having served nine years (2016-2024), within the accepted term according to the Corporate Bylaws. The last period of the current statutory auditor will be in 2024; therefore, a new selection process is being carried out for 2025.

**29.10. Within the maximum contract term, the Company encourages the rotation of the statutory audit firm's partner assigned to the Company and their work teams midterm during the period. The rotation of the firm is mandatory at the end of the period.**

**29.10 Implemented measure**YES ☒NO ☐N/A ☐**YES. Briefly explain:**

Because Ecopetrol is listed on the New York Stock Exchange (NYSE), it must comply with the requirements of the SOX law, which in its section 203 requires the rotation of the audit partner every five years (it is illegal for it not to rotate upon completion of said period. Likewise, this is a requirement of the quality control performed by the audit firms that audit listed companies and is subject to the requirements of the Securities and Exchange Commission (SEC).

Additionally, following the provisions of Article 35 of the Corporate Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024), in addition to the disqualifications and conflicts established by law, whoever has received income from the Company and/or its subordinates, representing twenty-five percent (25%) or more of their annual income of the immediately preceding year and, whoever performs or exercises in the Company and/or its subordinates, directly or through third parties, services other than those of the Statutory Auditor, which compromise their independence in the exercise of the position may not be the Statutory Auditor of Ecopetrol. The Statutory Auditor will be appointed for periods of four (4) years and reelected consecutively until reaching ten (10) years; they be rehired after one (1) period away from the position and may be contracted again after one (1) interim period away from the position. The partner assigned to the Company must, in any case, alternate after reaching five (5) years in this position.

Consistent with the above, in 2022, the partner assigned to Ecopetrol S.A. was changed because they had completed the allowed term of five years. They were replaced by Edwin Vargas, a new partner. Likewise, in 2022, the company ensured that new natural persons the firm designates as Statutory Auditors were also assigned, and therefore, they do not need to be changed in 2024.

**29.11.** In addition to the current prohibition on not contracting the professional **services of the Statutory Auditor** for other particulars beyond those of the financial audit itself and other duties recognized in current regulations, the Company extends this limitation to the persons or entities related to the firm of Statutory Auditor; this mandate covers the companies of its Group, as well as the companies wherein there is a broad correlation between its partners and/or administrators with those of the Fiscal Audit firm.

**29.11 Implemented measure**YES ☐NO ☒N/A ☐**NO. Explain:**

The prohibition against contracting professional services with the Statutory Auditor other than those of the financial audit itself, which diminishes its independence and other duties recognized in the current regulations, is extensive for companies of the Ecopetrol Group.

According to Article 35 of the Corporate Bylaws of Ecopetrol S.A. (last amended and ratified by the General Shareholders' Meeting on March 22, 2024), the Statutory Auditor may not be the individual who performs or exercises Ecopetrol S.A. and/or its subordinates, directly or through third parties, services other than those of the Statutory Auditor that compromise their independence in the exercise of their office.

According to the provisions of the Regulations of the Audit and Risk Committee of the Board of Directors of Ecopetrol S.A., said committee, within its duties, has the responsibility to evaluate the candidates and recommend to the General Shareholders' Meeting the appointment of the Statutory Auditor following The Corporate Bylaws, as well as the approval of additional duties to be performed by the

Statutory Auditor permitted under Article 207 of the Commercial Code and the laws of the United States securities market (Article 10, numeral 23).

At the shareholders' meeting of March 22, 2024, the election of the Statutory Auditor was approved by a majority vote for the remaining term of 2023 with an option to extend to 2024, and the Audit and Risk Committee of the Board of Directors of Ecopetrol S.A. was authorized to assign and authorize additional work to the Statutory Auditor during the year (and the optional extension year), related to relevant information for the Company, which are not included within the purpose of the contract, and do not generate any conflicts regarding the performance of their position, and therefore can be executed thereby.

Consequently, for those times when the Company has needed to contract other additional services permitted with the firm that works as a statutory auditor, it has been done ensuring that these services will not affect their independence under applicable regulations, requiring that the work teams maintain their independence, and submitting said hiring for approval by the Audit and Risk Committee of the Board of Directors.

The foregoing is because the figures in question are specific to the auditing firm and as part of the requirements for the appointment and in order to comply with that established in the Corporate Bylaws, the statutory auditing firm certifies the following:

- The firm I represent is independent, and I have no knowledge that there exists an event whereby the firm or its employees have any reason to be disqualified, deemed incompatible, or have a conflict of interest that prohibits me from auditing (as Statutory Auditor or External Auditor) Ecopetrol S.A. and/or some of its subordinate companies both nationally and internationally.

**30.1.** The Board of Directors has approved an information disclosure policy that specifies, at minimum, the information covered by the Recommendation.

**30.1 Implemented measure**YES ☒NO ☐N/A ☐**YES. Briefly explain:**

According to the provisions of the Corporate Governance Code approved by the Board of Directors, Ecopetrol S.A. considers communication to be a comprehensive and strategic business management process governed by transparency, clarity, and timeliness. In this sense, Ecopetrol states that the information it supplies must be accurate, truthful, complete, and supported by facts and results.

In carrying out the provisions included in the Governance Code approved by the Board of Directors and to fulfill this objective, Ecopetrol has a "Procedure for the Disclosure of Relevant and Non-Relevant Information" (code COM-P-003) which aims to guarantee the delivery of timely and truthful information to the securities markets and the media in compliance with the established regulations and through the regular conduits officially defined by the Company.

Following the provisions of the Good Governance Code approved by the Board of Directors, Ecopetrol S.A. considers communication to be a comprehensive and strategic process for business management, which is governed by the principles of transparency, clarity, and opportunity. In this sense, Ecopetrol states that the information it provides must be precise, truthful, complete, and supported by facts and results.

In the development of the provisions of the Good Governance Code approved by the Board of Directors, the Company defines policies for the preservation, protection, administration, and disposal of information to meet this objective. Indeed, Ecopetrol has a Procedure for the Disclosure of Relevant and Non-Relevant Information (code COM-P-003) that aims to guarantee the delivery of timely and truthful information to the stock markets and the media respectively, in compliance with established standards and through the regular channels officially defined by the Company.

This procedure highlights the following:

- i. The authorized area at Ecopetrol S.A. to disclose Relevant Information is the Capital Markets Management -GMC- or whichever is assuming its duties, under the Corporate Vice Presidency of Finance and Sustainable Value, or whichever is assuming its duties.
- ii. Ecopetrol S.A., in its capacity as an issuer of securities registered in the National Registry of Securities and Issuers administered by the Financial Superintendency of Colombia, is obliged to publish Relevant Information for any situation related thereto or its issuance and that would have been considered by a prudent and diligent expert when purchasing, selling or holding the securities of the issuer or when exercising the voting rights inherent to said securities. The Relevant Information must be truthful, clear, sufficient, and timely and must be provided under the terms and conditions referred to in Articles 5.2.4.1.5 and following Decree 2555 of 2010 and other regulations that modify. Complement and/or repeal these.
- iii. Notwithstanding that the channels to disseminate Relevant Information are those specified by the regulations applicable to the markets where the securities issued by Ecopetrol S.A. are listed and negotiated, the following channels are those ordinarily used for this purpose:
  - Colombian Public Securities Market Information System (SIMEV)
  - EDGAR Information System of the SEC (U.S. Securities and Exchange Commission)
  - NYSE Connect Information System (New York Stock Exchange)
  - Any information system provided by a securities market where securities issued by Ecopetrol S.A. are listed and negotiated
  - International distribution systems for press releases contracted by Ecopetrol S.A.
- iv. In accordance with the Good Governance Code and Corporate Responsibility policies, interest groups related to Ecopetrol can be consulted on the Ecopetrol S.A. website.

According to Article 1 of the Internal Regulations of the Corporate Governance and Sustainability Committee of the Board of Directors, this Committee assists the Board of Directors, is knowledgeable about and analyzes, within the framework of its duties and beforehand, the issues that will be considered by the Board of Directors and as the case may be, provides its recommendations so that the latter may adopt the corresponding applicable determinations, mainly on issues related to the Company's good governance and sustainability. Its duties include reviewing and recommending to said governing body the measures to adopt regarding the Company's governance, as well as the governance model applicable to the Ecopetrol Group and the espousal of the Company's sustainability agenda.

Additionally, paragraph e of numeral 10 or Article 10 of the Regulations grants this body the duty of reviewing and recommending to the Board of Directors the approval of the Annual Corporate Governance Report that will be presented to the General Shareholders' Meeting. Said Report evinces compliance with corporate governance practices and the performance of the Board of Directors and its support Committees.

In this sense, numeral 9 of Article 23 of the Corporate Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024), establishes that the Board of Directors has an obligation to prepare and present to the General Shareholders' Meeting a report on compliance with corporate governance practices.

In the General Shareholders' Meeting held in 2024, the Chairperson of the Corporate Governance and Sustainability Committee presented the Annual Governance Report to the shareholders, which was approved by the Meeting.

N/A ☐

**YES. Briefly explain:**

In conformity with Article 23 of the Corporate Bylaws (last amended and ratified by the General Shareholders' Meeting on March 22, 2024), the Annual Corporate Governance Report evinces compliance with corporate governance practices and the performance of the Board of Directors and its support committees. This Report is not a transcript of the Corporate Governance norms or corporate documents, but, on the contrary, this document describes the actual operations and performance

dynamics of both the Board of Directors and the Administration regarding corporate governance, reflecting the relevant matters that took place during the period of the respective report.

In 2024, the Annual Corporate Governance Report fulfilled this mandate, explaining the realities of running the Company and the changes that occurred during the year.
